

Lau Ching Kwok (Timothy)

Senior Product Designer • Product Discovery, Planning & Complex B2B Products

nekoking2010@gmail.com | linkedin.com/in/timothyck | nekock.github.io/timothy-portfolio-v2

9 years in product design, translating ambiguous user needs, business goals and technical constraints into validated product directions and scalable B2B solutions. Connects research, planning and cross-functional delivery across FinTech, AI, cybersecurity and IoT in Taiwan, Japan and Hong Kong.

CORE SKILLS

Product discovery / Research-driven decisions / Complex UX flows / B2B productization / Cross-functional alignment

Tools: Figma, Claude, Photoshop, Illustrator, AI prototyping | Languages: Chinese & Cantonese (Native), Japanese (N1; raised in Japan; market interviews), English (Business)

EXPERIENCE

Freelance Product Designer | Taiwan

Jun 2026–Present

Market-entry validation and product design for an online-course company.

- **Market validation.** Designed 4 pilot workshops in 1 month, using competitor research and user journeys to test demand for career transition courses in Taiwan.
- **Early traction.** Designed course content for a pre-launch graduate job-search program; it attracted target users and recorded its first success case within 1 month.

AIFT, Taiwan | Product Designer / Product Planning

Aug 2022–May 2026

Partnered with product, engineering and sales from discovery through delivery across B2B cybersecurity, AI and FinTech.

- **Delivery scalability.** Identified bespoke-delivery bottlenecks and structured recurring client needs into 3 business models, tripling capacity from 1 to 3 projects/month.
- **SaaS productization.** Modularized highly customized enterprise insurance delivery into reusable templates and workflows, cutting requirement confirmation from 1 week to 2 days and delivery from 3+ months to ~1 month.
- **Website UX.** Investigated an 85% bounce rate through enterprise interviews and usability analysis; restructured the site, lifting page views by 200% and engagement from 5 to 40 seconds.
- **Design system.** Unified 2 cybersecurity products under a shared design system, halving maintenance costs and MVP redesign/development time and cutting production cycles from 2 weeks to 1.
- **AI service workflow.** Mapped inbound-call needs with sales and engineering to design AI customer service; projected annual savings: ~720 hours and NT\$1.5M.

Contract Product Designer

Aug 2021–Aug 2022

Improved a FinTech lending app through research, prototyping and usability testing.

- **P2P lending.** Redesigned borrower/investor flows after identifying friction; pre-launch usability tests showed borrowing completion rising from 24% to 80% over 3 months of iteration.

NextDrive, Taiwan | Product Designer

Oct 2020–Jul 2021

Evaluated smart meters and energy-management services.

- **Product pivot.** Taiwan/Japan interviews and prototypes revealed limited ToC smart-energy demand and growth potential. Recommended a ToB pivot; management adopted it, avoiding ~NT\$10M in investment.

NLP, Taiwan | Founding Member / Product Designer / Product Planning

Nov 2019–Sep 2020

Handled product planning and business-model exploration for an early-stage AI Agent startup.

- **AI business model.** To address the ToC AI Agent's lack of a ToB revenue model, designed merchant matching, AI ads, storefront and placement flows; tests with 10 merchants validated interest and MVP direction.

FLH, Taiwan | Product Designer / Acting PM

Nov 2018–Nov 2019

- **Service redesign.** Found users valued scenario control over individual switches; reframed the app and halved task time (10 to 5 seconds). Co-designed smart-home services with KDDI (Japan).

OEUF, Hong Kong / Japan | Co-founder

Mar 2017–Nov 2019

- **Market research.** Nearly 100 care-worker interviews in Hong Kong and Japan exposed trust gaps around skills and credentials, focusing the service on training and certification.

EDUCATION

M.S., Electronics Engineering (2013–2015) / B.S., Electronics Engineering (2009–2013) | National Chiao Tung University

INTERESTS

Methodology & Psychology / Innovation Workshops / Photography / Languages & Culture / Independent Travel & Urban Observation
